
Lynnell - about stage

Is Stage Lynnell's husband or boyfriend? Lately he has been called her husband. But in the begining I remember Hailey calling him the psyco Boyfriend a few times.
Please let me know your thoughts.

I know that she is married but she may not have been married too long when they went on the show. If I remember correctly they got married with out telling anybody they were going to get married. Maybe Haily just hadn't gotten used to the fact that they were married yet.
