halfdollar I can't believe you missed those last time around!

Everytime I saw them, all I could think of was How do you sleep with those earrings on the inside of your ear!

I can not sleep with any earrings at all, and I only have one :blink:

Now that O/ring in her lip :x :x :blink: that one is way off the scale :P :P :P

Actually,

I have had them. They hurt the first month and after that you are fine. I don't have them anymore because of my kids. If you take care of them they don't bother you.
