I checked out The L Chain and saw their family pictures. The one with Hailey's dad said they were at the Academy Awards...he was nominated 4 times. For what ? Should I know him? How are Hailey and her twin doing? They didn't mention it. Also her brother Blu is a cutie B) !!! Great pictures !! Thanks for sharing ! :)

Hi Clicker

You got me curious so I went to L Chain to see the pictures. I had taken a quick look last week at the site but did not really go into all the threads there, anyhow I saw the pictures and I was amazed at how much the kids look like their father.

And your right Blu is a cutie.

I had to laugh the first time I hear Lynell say her sons name was Blu :blink: that is my older dogs name :laugh: :laugh: Just never heard a person called that before.

I found the answer to your question about Haileys dad.

In the article about the twins' birth in the last paragraph it states that the dad took time off work as a (Sound Effects Editor at Burbank Studios.) B)

So I guess it is for his work in pictures some larger films that he was nominated for.

That must have being a great night to go to the Academy Awards :laugh: :ohmy: :unsure:

I was sad to read that Lynnell is still trying to work things out with that man.

I would not give him the time of day if I got out of that relationship!

She should have go on to be totally on her own and then she could truly find her inner strengths and not had that nagging voice in her head that she needs a man in her life to make her whole. :unsure:

But like they say until you have walked a mile in her shoes, we don't know everything about the whole story.

I just hope she is finding some peace and real happiness and pride in herself and her children.

Bye for now

Hugs

Did you read the article on the site that gave a ton of background? It isn't in the greatest quality and it talks about her cancer. The best thing I found was that blu's first name is kyle. I too rremember having a dog named blu.

Also haileys dad has worked on several movies. Here are some of them:

Mystic River (2003) (supervising sound editor)  
Star Trek: Nemesis (2002) (supervising sound editor)  
Blood Work (2002) (supervising sound editor)  
Lara Croft: Tomb Raider (2001) (supervising sound editor)  
... aka Tomb Raider (2001) (USA: short title)  
Heartbreakers (2001) (supervising sound editor)  
Shrink Is In, The (2001) (sound editor)  
Replacements, The (2000) (supervising sound editor)  
Space Cowboys (2000) (supervising sound editor)

I own so many movies that he has worked on.
