Wow, this one was new to me.. (or...I just don't remember it...which is a good chance!)

Maybe the renewed interest is a good reason to bump it up.

Mentions one of her primary goals for 2005 was to get a record deal.. and also to help her husband who was trying to get a book published. (she was in SO in 2004)

Came up with a tidbit re: that book Andre was writing.

Found an article online that plugs the book. The book itself is also online.. (Probably have to pay to read it online..)

Anyway.. this is new to me...and may be new and interesting to the SO2 fans.

Andre is apparently going by a pen name.. But is mentioned by name in the article.

The site for his book is:

Hit enter to get more prompts.. I only glanced at the sample page.
Not enough to give an opinion.

I don't even recall him being a writer?

The date of that article was in October.. of 2005..
