We lived up in Superior, MT for a few years when our kids were little and can't wait to move back someday!!!! We miss it even though we are in our own gorgeous mountain state of Colorado!! My hubby and I grew up here in Colorado and remember when it was a lot more like Montana with so few people. Now it's totally packed and there is such a loss of the western culture and small town kindnesses and closeness. Soooooooooooooooooo.....we'll head back up to Montana when hubby can retire!!!! :laugh: ;)
