does anyone know if there are plans to release the shows on DVD? I don't have TV-one in my area - and am so disappointed. I miss the show.

I haven't heard anything about one. The only thing I can think of is to contact Bunin-Murray and make a request.

Here is a link to their website.

My guess is they could care less about SO. And choose to pursue other opportunities..

I do think it should be released on DVD because with Family Guy (even if it IS a completely different type of show) being released on DVD, they saw the outpouring of fans and the fanbase that grew that I can only imagine the same happening here with this show
