
PM problem

Posted by Debby - 2007/03/20 10:10

Has anyone tried to send a pm to someone and it said no user by that name? KPW1956, I think this happened once before and you had to clear out your pm's or something. Please try that again. My last PM didn't go through to you.

Make sure you (the sender) has recently cleared your temp internet files and cookies.

I deleted my temporary files and then attempted to send pm again. It still would not go through. I am able to send other members pms. I sent a test pm to TigerRose and Grizz, so it may be on KPW's end.

Sorry Debbie... I guess I'm a jinx.. Maybe make sure you use all caps..

I did clean out my outbox a bit.. I will clear out the inbox today too.

I will do some more spring cleaning tonight and first thing tomorrow. I think you both know my regular email at yahoo if you need me..

If it doesn't work tomorrow.. I don't know what the problem is.. I've already cleaned out at least 150 pms.. I didn't change any settings. I know there used to be a limit.. but I don't see anything noted at my email indicating that I was exceeding anything..

Thanks for letting me know..

Is there a conspiracy against me?

I guess I wore out my welcome! LOL!

i cleaned out all the outbox... over 250.. and 90% of my inbox..

If someone can't get a pm to me now... I don't know what the problem could be.

I think there is a 250 limit so that might have been what the problem was..

I just tried to send a PM and still not working. Anyone having this problem?

I have had that problem before sending PMs. It seemed to clear up when the receiver, cleared out their old received messages.

cough,cough... You talking about me?

Yeah, I had let my inbox and outbox pile up... I did some drastic housecleaning a few weeks back. I think it's working ok now...

I think there is a 250 message limit or something.. But I think I had about 250 in each..

Hahhaa,
I was also referring to you. Tried to send you a PM earlier but it wouldn't go threw.

KPW I think maybe you should change your name!! LOL kidding.. But I did try to send you a quick hello earlier and I hit submit and nothing happened.

(Kidding about changing your name)
:laugh:

could it be my side.. cause I try to use the emoticons and they won't work on here.. I have to type : laugh : - all together in order for it to work.

I dont know.....

Well my boxes are really low? What's your counts in your outbox?

I'll try to pm you to see if it comes in..

Maybe the system has quirks!

YOurs worked!!! and now I just sent you a PM in return.. looks like it worked!

Hurray@! not sure what was wrong with it before.. maybe it just felt like giving me a hard time or something.

hahaha

Did you get my PM KPW?

Re: I Have a problem

I THINK I FOUND THE PROBLEM!!!

KPW, when you sent me your PM I responded back with a reply. But when I try to send one to you or anyone with a fresh new page I click on the submit button and nothing happens...it's doesn't do anything.

So, it looks like there's something wrong on my end. Not sure how to fix this. Does anyone have any ideas.

Another thing. When I try to use the bold or Italic codes they won't work, and the emoticons..

HELP! anybody???

Sorry no clue.. You might have to check with the maestro Tara. I am not very computer savvy.

Maybe you can recheck some of your settings on the forum.

Heck, I don't even use the majority of the bells and whistles regarding font and color... Only occasionally use the emoticons!

The last pm I rec'd was 4/6...
