## Dr. Will & Mike Boogie, DR. 90210

---

This is the most bizarre thing I believe I have ever seen of tv. I'm not sure when it came on but I think it was recently. Dr. Will, if you will remember from BB and Mike Boogie from BB are on Dr. 90210. DR. Will is a regular plastic surgeon on there this season.

In this one episode, Mike goes to see his good buddy because he has a bump on his penis. Dr. Will examines him, on camera, and then proceeds to surgically remove the thing, (genital wart). They show the wart too!

If you saw these two guys and their shananagans on BB AllStars, this episode will be very amusing. They were very tight and had planned to be the last 2 standing.

The rest of the shows with Dr. Will are pretty good. He seems to be a nice, good, doctor. Go figure. MIke comes off as a real jerk though, IMO.

You can watch it at:
