Hi everyone... I just want to share this video link battle of the sexes i found a while ago and it makes me wonder why people in the world are sometimes crazy? Actually it is the reason for me to share this to you since in fairness to that one, it's still very hilarious to watch, and it kills me every time I see it. Well, if you happened to see it already which of the two videos is more damaging? The ping pong one is my favorite...Gosh!!! What a crazy guy :- p
