hsmom, hi! B) I read this info on SO site under Towanda-so many people have posted on this topic! :ohmy:
I had never heard the term "DL" but figured it out after reading the posts. It is a man who likes both men/women, primps himself, likes sex w/both, but marries a woman to cover his true facts. I guess it's a very popular way of living. Don't blame all this on me, I posted under Rumors cuz' that's what it sounded like it came from. They had said something about him missing w/his brother for that length of time, maybe his brother took him somewhere to "seek." :ohmy:

whew! I'll be glad when he carries hisself back to where he came from.... :ohmy: :unsure:

actually hd he would be considered a bisexual. whatever his preference is he now wants his wife and is working on his marriage. I think he is doing a great job.

B) Personally I DO NOT care what way he goes!!!! I was repeating info in RUMORS cuz' that's what I considered it to be. I am speaking of another term that was described where I stated: DL = Down Low .
I dont care for the Dude and seeing how they carried on today on the show--
gagged me! :ohmy: :x
