I was just looking at the episode guide at the SO site and I noticed in the pict for that days episode... looks like a picture at Sommer's graduation. The woman in the pict on the far left looks like Renee from SO2... So we might see her tomorrow too!

I think in Iyanla's online chat at WCW the other week that she mentioned it was Renee that was pushing for Sommer to be given the opportunity to finish up at the SO house. I know Jennifer was a good friend from the household too... So I am sure her visiting allowed to kill 2 birds with one stone... Being able to see Sommer graduate and to talk to Antonia..

Yeah, I believe I saw Renee at Sommer's graduation too. But, I don't remember seeing Jennifer there. Well, we shall see tomorrow.:)
