
Why I Wore Lipstick To My Mastectomy

This was a movie on Lifetime TV, and a book by Geralyn Lucas.

Geralyn was twenty seven when she was diagnosed with breast cancer and underwent a mastectomy. This is a memoir about her experience with breast cancer... how she empowered herself as she went through her surgery, recovery, reconstruction and dreams of motherhood. The book's underlying theme is self acceptance.

I loved this movie... it was so realistic, but so hopeful.

Oh I forgot all about that!! I saw her interviewed along with the actress who played her in the movie and was going to watch it, but I forgot. Oh well, Lifetime usually reruns movies fairly often, so I'll be able to catch it again. Her story was definitely inspiring!! I loved what she said about the tattoo!!!! ;)
